**REPORT OF HIGHWAY COMMISSIONERS.**

RODERIC P. WILSON.

## TOWN HIGHWAYS.

Work on the roads started about March 12, 1936. This work consisted of opening drains and ditches and continued until the time of the flood, which caused some washouts. These were filled with rocks and gravel, being completed March 17, 1936, with a total cost of \$93.75.

We then started hauling gravel on to the places that were breaking through and dragging, continuing until the middle of April at a cost of \$278.73.

The remainder of the year we worked on general repairing and dragging, with two short sections on the Range Road being ditched and graveled.

## STATE AID CONSTRUCTION.

Work started on State Aid June 30, 1936, which consisted of putting out sand for applying tar to the 3,000 feet that was already constructed. Construction started July 20, 1936, beginning at the Methodist Church and coming toward the Gray Road. A total of 1,000 feet of road was completed at a cost of \$1,056.65, with a balance in the hands of the State to cover the cost of applying the tar to this new section.

## STATE AID MAINTENANCE.

There was very little work done on maintenance this year and consisted only of dragging the road in preparation of applying the tar.

## BRIDGES AND CULVERTS.

Work on bridges consisted of repairing guard rails, and there are several more that are not in very good shape.

There were three new culverts installed on the Valley Road, and one of the old ones was lowered. Work was started on the large culverts located on the Range Road which had started to cave into the road. A pipe extension was put onto the upper end, and the fill was started.

## BUSHES.

The bushes were cut on State Aid No. 3, State Aid No. 4, and the Gray Road. These roads are under State supervision and have to be cut. The money to do this was taken from the highway money.

## ARNOLD A. FIELD.

Work started with the flood of March 12 and consisted of hauling rock and gravel to repair washouts.

## HIGHWAYS.

This work consisted of repairing and filling holes. A curve was straightened by blasting and rebuilding near Ripley Burnell's on the Range Road. Also a piece of road on Range Road beyond brick schoolhouse was rebuilt.

As there was no money raised for bushes, the expense for cutting bushes was taken from this account. We were obliged by the State to cut bushes on State Aid and Third Class Roads.

## THIRD CLASS AND STATE AID MAINTENANCE.

The washouts on Morse Hill and Greely Road took considerable rock and gravel, and the rest was used in repairing and scraping.

## BRIDGES AND CULVERTS.

A few new culverts were put in this year. The falling in of the large rocks at the culvert on Greely Road, late in the fall, caused this account to be overdrawn.

## SPECIAL RESOLVE.

1,400 feet were constructed, and this went to the top of the hill on Long Woods Road, within 400 feet of Falmouth line. The base used was extra good but hard to shovel by hand.

## THIRD CLASS CONSTRUCTION.

A culvert 4 feet by 34 feet was installed and headed by stone taken from the old culvert. This expense kept us from reaching the culvert with the base this year. We also had to cut a distance of 300 feet, at a depth of from two to three feet, in the old road bed.

FEDERAL REPORT OF BLISTER RUST CONTROL,  
1936, FOR TOWN OF CUMBERLAND.

*To the Board of Selectmen, Town of Cumberland, Maine:*

GENTLEMEN:—It is our desire to show by this report the results accomplished in your town on blister rust control work during 1936.

We are deeply grateful to the selectmen and townspeople for the coöperation given us. Our contacts in your town have been most pleasant. Work started May 18 and ended September 23.

Number of men employed,	12
Number of acres covered,	4,779
Number of wild and cultivated currant and goose- berry bushes pulled,	136,259
Amount of W. P. A. funds for labor,	\$2,659 75
Amount of W. P. A. funds for transportation,	146 96
Amount of W. P. A. funds for equipment,	4 29
<hr/>	
Total amount spent,	\$2,811 00
Average cost per acre,	\$ 59
Average bushes per acre,	24
Laborers received per month,	\$52 48
Foreman received per month,	\$75 52

We were fortunate in having sufficient W. P. A. funds to conduct the control work throughout the entire season. Therefore, it was not necessary to spend any of the town funds during 1936. We will in all probability need this appropriation to carry on the work this year, especially after July 1. In consideration of the above W. P. A. work, we earnestly desire that you will hold over the town appropriation of 1936 or make available a similar amount for control work in your town this year.

Very truly yours,

(Signed) G. H. KIMBALL,  
*Chief Scientific Aid, Plant Disease Control.*

**PUBLIC NOTICE.**

Assessors must report to the State the number of dogs in town April 1st.

Every owner or keeper of a dog four (4) months old shall cause it to be registered and licensed by April 10th, and shall keep a collar on dog marked with license tag.

Licenses are issued by the town clerk.

Whoever keeps a dog contrary to the provisions of chapters of the Revised Statutes shall forfeit \$10.00, five of which shall be paid to complainant and five to treasurer of town.

Warrants shall be issued within ten days from May 1st, returnable on June 1st, to constables directing them to kill unlicensed dogs.

If a dog dies between April 1st and June 1st, notice should be given town clerk, as the State report goes to them at that time, and otherwise a license will have to be paid just the same.

The law does not require a notice sent to dog owners that license is due.

Public notices are posted by town clerk 20 days before April 1st, as ordered by law.

## REPORT OF THE CLERK OF CUMBERLAND CEMETERY ASSOCIATION.

*To the Citizens of the Town of Cumberland:*

The first consideration of the Cemetery Association has been clearing the bushes and mowing the grass in the several cemeteries, looking forward to making permanent improvements as soon as funds permit.

Much work is needed in the two cemeteries at West Cumberland to remove the blueberry and other rapidly-spreading bushes. Your attention is called to the improvement at the Farris Cemetery where two rows of stones have been reset and a portion of the grounds graded, which we hope can be continued this coming year.

At Moss Side the unoccupied area at the northeast side has been cultivated and must be seeded and surveyed and lots laid out ready for sale. Water has been piped to this cemetery at a cost of \$50.31. Interested parties contributed \$36.00, the remainder being paid by the association. One person gave work instead of money. The Cumberland Center Water Company very generously furnishes the water free.

At the old cemetery at the Center all the bushes were removed last summer and the grass well cut, making a noticeable improvement. There are many stones, especially the very old ones that must be reset. The Foreside Cemetery under the supervision of Fred E. Chase is especially well cared for.

The coöperation of lot owners is greatly needed and earnestly solicited.

Respectfully submitted,

GERTRUDE S. BRAGG,

*Clerk of the Association.*

### REPORT OF FIRE CHIEF.

During the past year the Cumberland Center Fire Company has responded to forty-four (44) calls, eight (8) of these being from other towns.

On June 17, 1936, the new fire truck was delivered. This truck was built by the McCann Corporation and has proven very practical. It is equipped with both booster and portable pumps, carries one hundred fifty (150) gallons of water, and is capable of storing two thousand feet of one and one-half inch fire hose.

The equipment formerly used here was delivered to Chebeague Island and the old chemical truck used there has been dismantled.

The fire equipment is inspected regularly and kept in readiness at all times.

With the whole-hearted coöperation of the townspeople and the telephone operators, we have tried to keep the fire loss at a minimum.

Respectfully submitted,

KENNETH W. CHASE,  
*Fire Chief.*

**REPORT OF THE SUPERINTENDENT OF SCHOOLS.**

*To the School Committee and the Citizens of the Town of Cumberland:*

There are two major responsibilities resting on those who are in charge of public education. The first obligation is the efficient solution of the immediate local educational problems. An able teaching force with a sympathetic understanding of the desires and needs of children and wise planning are the constant aims in meeting this first responsibility. This wise planning includes the careful preparation and execution of the school budgets as well as the maintenance and development of a well-balanced educational program. The second obligation is to public education as an American institution. Your school officers should never falter in making contributions to the proper guidance and protection of public education as occasions present themselves. In this connection I shall coöperate with those in the state who desire to stabilize educational support in Maine, while serving you this winter as a member of the Legislature at Augusta.

This stabilization, as at present designed, takes the form of placing upon the State the responsibility to support financially one-half the minimum educational program through taxes collected from some other source than from real estate. This support is the State's reasonable obligation toward the training and protection of its citizens. It is just as vital for the State to protect its citizens, through education, against propaganda as to protect them against invasion by military enemies. Should the Legislature pass the new Educational Bill it would mean the following to the Town of Cumberland:

State Aid 1935-1936.	State Aid New Plan.	Increase in State Aid.
1	2	3
\$2,873.00	\$7,087.00	\$4,214.00

The amount given in column three represents additional funds that could be used for the reduction of real estate taxes or for the improvement of educational opportunities—that would be for the voters to decide.

## MISCELLANEOUS.

The school financial records are closed twice a year. The accounts are balanced and closed in February for the Annual Town Meeting and also in June for the State Reports. The enrollment varies from year to year in the Town of Cumberland, and it is much more accurate to figure school costs for the school year beginning July 1st and ending June 30th.

In the Town of Cumberland the children are being housed, educated and, in many cases, transported at the following per pupil costs:

	Yearly Cost.	Daily Cost.	Hourly Cost.
Elementary,	\$56.03	\$0.327	\$0.046

The transportation cost per pupil transported by town bus per day is \$0.07.

The transportation cost per pupil transported by town bus per year is \$12.166.

The school buildings in this town have been kept in repair at a cost per pupil of \$1.856.

The number of pupils per elementary teacher is 24.

The number of pupils per secondary teacher is 21.

School enrollments for the past seven years (figures are Fall Term enrollments only):

HERMAN P. SWEETSER.

The major repairs made during the past year are as follows: Painting inside E. K. Sweetser School, stove for E. K. Sweetser School, weatherstripping West Cumberland School windows and back door, purchase of twelve new desks and chairs, painting Central School, Chebeague Island.

Your schools are progressing very nicely. The same general conditions prevail as were published in last year's Town Report. The high schools are maintained 36 weeks and the elementary schools 34 weeks.

The coöperation of the citizens of Cumberland during the past year is greatly appreciated.

Respectfully submitted,

JOHN T. GYGER,
